

# Microsoft Partner Rad Web Hosting Offers Windows Dedicated Servers in HIPAA-Compliant Data Center in Phoenix, AZ

*Rad Web Hosting is offering affordable Windows dedicated server hosting in a HIPAA-Compliant enterprise-grade data center in Phoenix, AZ.*

PHOENIX, ARIZONA, US, July 30, 2020 /EINPresswire.com/ -- [RAD WEB HOSTING](#), a leading provider of web hosting services and Microsoft Partner, is providing affordable Windows dedicated server hosting in their [HIPAA-compliant data center in Phoenix](#), Arizona.

With the increased demand for streaming services, the importance of reliable, high-bandwidth dedicated server hosting is rapidly growing.

Now, users can rent [Windows Dedicated Servers](#), hosted in top-tier USA datacenters with access to unlimited monthly bandwidth.

Rad Web Hosting servers are connected to their premium network blend of multiple Tier 1 fiber, which provides redundant failover to prevent downtime. All servers are connected to the network by full-duplex uplink ports with unshared access to 100Mbps, 1Gbps or 10Gbps.

Server plans include either single-cpu Intel Xeon E3-12XX or dual-cpu Intel Xeon E5-26XX processors with configurable memory, storage, and IP addresses. By default, every server includes 4 IPv4 and a /64 subnet of IPv6.
